Summary

Mid-level Flutter Developer with 4+ years building cross-platform mobile applications using Flutter and Dart. Delivered large-scale systems with 250,000+ downloads, integrating payment gateways (**Amazon PayFort**, **MyFatoora**), analytics tools (**Firebase Crashlytics**, **Microsoft Clarity**), and **third-party** APIs. Expert in **clean architecture**, **SOLID principles**, state management (Provider, Bloc), **WebSockets**, and RESTful API development. Proven track record deploying production apps with zero downtime, handling many concurrent users, and implementing performance optimization strategies.

Technical Skills

- Languages & Frameworks:** Flutter, Dart, Cross-Platform Development for Mobile, Web, and Desktop
- Backend Integrations:** RESTful APIs, WebSocket, Firebase (Crashlytics, Firestore, Authentication), Payment Gateways (Amazon PayFort, MyFatoora), Third-Party API Integration
- Architecture & Design Patterns:** Clean Architecture, MVVM, BLoC, Provider, Riverpod, SOLID Principles, OOP
- Tools & Methodologies:** Git, Jira, Agile/Scrum, CI/CD, Performance Optimization, Unit Testing, Debugging
- Specialized Features:** Google Maps API, Real-Time Chat, Push Notifications, Encryption, E-Commerce Solutions, AI Integration

Professional Experience

- Mobile Application Developer**
Neutral Design Studio

02/2024 – Present | Cairo, Egypt

 - Developed and maintained 5+ cross-platform Flutter applications serving 200,000+ users across Saudi Arabia and GCC markets, spanning E-commerce, Education, Logistics, and Healthcare sectors
 - Implement scalable architectures (Clean Architecture, MVVM, BLoC pattern) with RESTful API integration, Firebase services, and state management for optimized Android and iOS performance
 - Collaborate with UI/UX designers and backend teams to deliver pixel-perfect, user-centric applications; ensure on-time delivery through Agile methodologies and Git version control
- Flutter Developer**
NodeBook

07/2022 – 01/2024
Abu Dhabi, Remote

 - Built unified Flutter codebase for cross-platform deployment (Android, iOS, Windows, macOS, Web) with custom animations, responsive UI, and offline-first architecture.
 - Integrated AI-powered text editing features with real-time cloud synchronization, automating note-taking workflows and boosting content creation productivity.
 - Developed interactive mind-mapping system reducing document organization time by 30%; improved user experience with minimalist UI and seamless navigation.
- Flutter Developer**
Freelancer

11/2020 – 01/2024 | Self-Employed

 - Developed 30+ cross-platform applications across E-commerce, Real Estate, Healthcare, and Education
 - Led full-cycle development from concept to deployment (App Store, Google Play).
 - Mentored 5+ junior developers on Flutter best practices and code quality through technical reviews and workshops.
 - Collaborated with designers and backend teams to deliver scalable applications with third-party.

Projects

Binge — Healthy Meals Subscription Platform

250,000+ downloads

[Android](#) [IOS](#)

- Architected systems with scalable subscription flows and nutrition-consultation bookings.
- Integrated Amazon PayFort payments and QR-code linking for Saudi tax invoices.
- Implemented Firebase Crashlytics for crash analytics and Microsoft Clarity for user-behavior tracking.

NodeBook Editor — Cross-Platform Note-Taking [↗](#)

[Windows](#) [Mac](#) [Web](#)

- Created unified Flutter codebase for seamless mobile, desktop, and web functionality.
- Designed AI text editor with interactive mind-mapping, reducing note-organization time by 30%.
- Protected by **US** and **UAE patents** with published research paper [↗](#) ; deployed at Abu Dhabi University.

Schupply — School Supplies E-Commerce

[Android](#) [IOS](#)

- Qatari parent-centric app for ordering school supplies, uniforms, with multi-child profile management.
- Built secure multi-method payment system with 100% transaction reliability.
- Implemented dynamic product lists and school-specific packages through school contracts.

Tawkeele — Hajj/Umrah Service Platform (+2,000 downloads) [↗](#)

Client app: [Android](#) [IOS](#) | Performer app: [Android](#) [IOS](#)

- Developed dual-role apps with video documentation and progress tracking.
- Integrated end-to-end encrypted payments ensuring Sharia-compliant transactions.
- Scaled app to handle a lot of concurrent users during peak Ramadan season with zero downtime.

Spartsc — Multi-Vendor Marketplace

[Android](#) [IOS](#)

- Launched 3-tier app ecosystem (Client, Sellers, Admin) for unified shopping and car services.
- Integrated **MyFatoorah** payment gateway and **OTO delivery service**, enabling sellers to link products with automated seller info retrieval and delivery fulfillment.
- Integrate an AI-powered chatbot for customer support.

Ghimah Real Estate — Iraqi Property Platform

[Android](#)

- Built comprehensive City App with dual-interface (User and Admin) integrating property listings, job seeker services, online store, and social media features.
- Built context-aware chat system and real-time admin analytics for sales tracking and fraud prevention.

Education

Bachelor's Degree in Computer Science

2023 | Giza, Egypt

Culture and Science City - 6 of October High Institutes
